

Learn About the Features of Our ENERGY STAR® Qualified Homes

ENERGY STAR Qualified Products

Just One of the Energy-Saving Features Built Into Fred Williams' ENERGY STAR Qualified Home.

Appliances and lighting can account for nearly 40% of a home's energy use. So Fred Williams selects ENERGY STAR appliances and lighting for our ENERGY STAR qualified homes because they incorporate advanced technologies, better features, and use less energy than standard models.

Your new home is equipped with these ENERGY STAR products to help you save energy and money every day:

■ **PROGRAMMABLE THERMOSTATS**

ENERGY STAR qualified programmable thermostats come with pre-programmed energy-efficient settings to help you maintain a comfortable temperature when you are at home and save energy when you are away or asleep. Used correctly, these units can save you up to \$180 a year on your heating and cooling costs.
